1. Pertama buka aplikasi android, dan **Create New Project**

2. Buat file activity pada java

- CardContentFragment
- DetailActivity
- ListContentFragment
- MainActivity
- TileContentFragment

Ketikkan Source code pada CardContentFragment

```

import android.content.Context;
import android.content.Intent;
import android.content.res.Resources;
import android.content.res.TypedArray;
import android.graphics.drawable.Drawable;
import android.os.Bundle;
import android.support.design.widget.Snackbar;
import android.support.v4.app.Fragment;
import android.support.v7.widget.LinearLayoutManager;
import android.support.v7.widget.RecyclerView;
import android.view.LayoutInflater;
import android.view.View;
import android.view.ViewGroup;
import android.widget.Button;
import android.widget.ImageButton;
import android.widget.ImageView;
import android.widget.TextView;

        style="?android:attr/borderlessButtonStyle"
        android:tint="@color/button_grey" />
</RelativeLayout>
</android.support.v7.widget.CardView>

```

Selanjutnya buat layout pada item_list.xml, dan ketikkan source code dibawah ini

```

<?xml version="1.0" encoding="utf-8"?>
<RelativeLayout xmlns:android="http://schemas.android.com/apk/res/android"
    android:layout_width="match_parent"
    android:layout_height="wrap_content"
    xmlns:tools="http://schemas.android.com/tools"
    android:background="?android:attr/selectableItemBackground"
    android:padding="16dp">

    <ImageView
        android:id="@+id/list_avatar"
        android:layout_width="40dp"
        android:layout_height="40dp"
        android:scaleType="centerCrop"

    <TextView
        android:id="@+id/list_title"
        android:layout_width="match_parent"
        android:layout_height="wrap_content"
        android:layout_marginLeft="16dp"
        android:layout_toRightOf="@+id/list_avatar"
        tools:text="Eiffel"
        android:textAppearance="?attr/textAppearanceListItem"
        android:textSize="16sp" />

    <TextView
        android:id="@+id/list_desc"
        android:layout_width="match_parent"
        android:layout_height="wrap_content"
        android:layout_below="@+id/list_title"
        android:layout_marginLeft="16dp"
        android:layout_toRightOf="@+id/list_avatar"
        android:textColor="@color/medium_grey"
        android:ellipsize="end"
        android:singleLine="true"
        tools:text="Eiffel Tower"
        android:textAppearance="?attr/textAppearanceListItem"
        android:textSize="14sp" />
</RelativeLayout>

```

Kemudian buat layout pada item_tile.xml, dan ketikkan source code dibawah ini

```

<?xml version="1.0" encoding="utf-8"?>
<RelativeLayout xmlns:android="http://schemas.android.com/apk/res/android"
    android:layout_width="match_parent"
    android:layout_height="wrap_content"
    xmlns:tools="http://schemas.android.com/tools"
    android:background="?android:attr/selectableItemBackground"
    android:padding="8dp">

    <ImageView
        android:id="@+id/tile_picture"
        android:layout_width="match_parent"
        android:layout_height="160dp"
        android:scaleType="centerCrop"
        tools:src="@drawable/a" />

    <ImageView
        android:layout_width="match_parent"
        android:layout_height="160dp"
        android:alpha="0.3"
        android:background="@color/dark_grey" />

    <TextView
        android:id="@+id/tile_title"
        android:layout_width="match_parent"
        android:layout_height="160dp"
        android:layout_gravity="center"
        android:gravity="center"
        android:text="Ghost Rider"
        android:textColor="@color/white"
        android:textSize="20sp" />
</RelativeLayout>

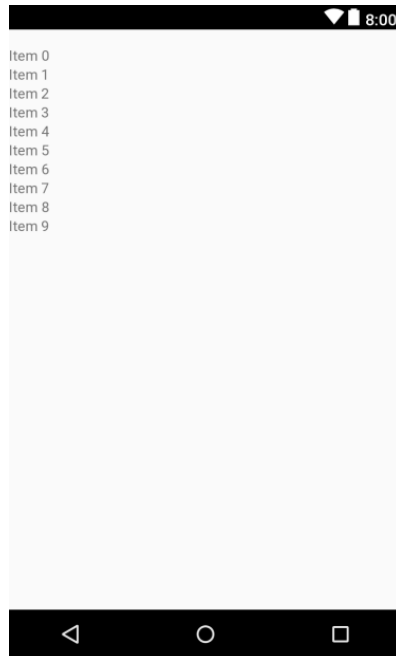

```

Selanjutnya buat layout pada item_list.xml, dan ketikkan source code dibawah ini

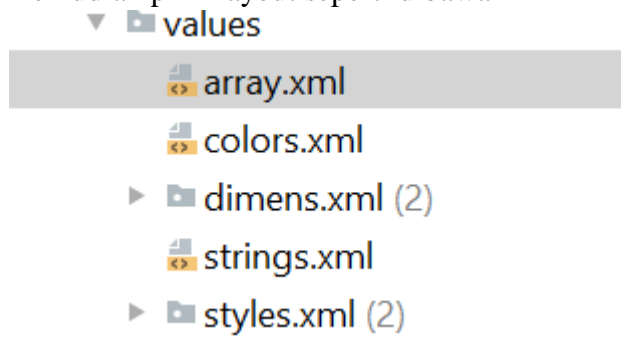

```
<?xml version="1.0" encoding="utf-8"?>
<LinearLayout xmlns:android="http://schemas.android.com/apk/res/android"
    android:layout_width="match_parent"
    android:layout_height="222dp"
    android:background="@drawable/dre"
    android:orientation="vertical"
    android:padding="16dp">
</LinearLayout>
```

4. Selanjutnya buat layout pada item_list.xml, dan ketikkan source code dibawah ini

```
<?xml version="1.0" encoding="utf-8"?>
<android.support.v7.widget.RecyclerView xmlns:android="http://schemas.android.com/apk/res/android"
    xmlns:app="http://schemas.android.com/apk/res-auto"
    android:id="@+id/my_recycler_view"
    android:layout_width="match_parent"
    android:layout_height="match_parent"
    android:clipToPadding="false"
    android:paddingBottom="16dp"
    android:paddingTop="16dp"
    android:scrollbars="vertical"
    app:layout_behavior="android.support.design.widget.AppBarLayout$ScrollingView..." />
```

5. Kemudian pilih layout seperti dibawah ini

6. Masuk pada array.xml kemudian ketikkan source code

```

<?xml version="1.0" encoding="utf-8"?>
<resources>
  <string-array name="places">
    <item>Eiffel Tower</item>
    <item>Elizabeth Tower</item>
    <item>Mekkah</item>
    <item>Piha Beach</item>
    <item>Liberty</item>
    <item>Pisa Tower</item>
  </string-array>
  <string-array name="place_desc">
    <item>Paris</item>
    <item>London</item>
    <item>Saudi Arabia</item>
